Gale Sweeping Western Europe

Deaths, Disabled Shipping and Damage to Buildings in England—Another Gale Due to Reach Eastern Europe Sunday.

London, Nov. 24 (P).—Having swept over the British Isles leaving the known dead and disabled and crippled shipping in its wake, a westerly gale today was howling across western Europe.

The storm was fully as severe as that of a week ago. In addition to the nine deaths there were numerous persons injured in scattered localities and much destruction of property.

The chimney of a school in Hull collapsed killing a girl pupil. The other pupils escaped with bruises.

The fate of the crew of the German steamer Herrenwyk which sank in the gale about 645 miles west of Ireland was in doubt, although it was known that a number of the men had been saved. The Danish steamer Estonia cruising around in the vicinity radioed that it had picked up 13 of the crew of 26. A dispatch from Copenhagen, however, said that 16 members of the crew had been rescued. The liner Transylvania also stood by the sinking ship and there were unconfirmed reports that she had saved six men before continuing her voyage. The Estonia was still in the neighborhood hoping to pick up other survivors.

The Spanish steamer Cantabria was driven ashore at Ayre, Isle of Man. A rocket brigade stood by and an attempt was made to float the vessel at high tide. The crew of 25 was reported to be in no immediate danger.

The violence of the wind at Southampton caused delay to several liners scheduled to depart. These included the Tuscania, bound for New York. The Majestic was late in getting on her voyage from New York. Shipping was also interrupted in the Mersey river, the Canadian Pacific liner Montclair landing passengers at another port.

It is believed that a number of fishing fleets caught away from their bases by the storm would manage to make port without loss of life.

Steamer service between Ostend and Dover was cancelled and airlines stayed at Croydon instead of leaving for the continent.

The weather was particularly severe today over the channel ports of France and along the French Atlantic coast. Fishing craft and other vessels were storm bound. The British steamer City of Agnes and a number of other steamships and sailing vessels asked in messages through the Quessant and other French wireless stations that tug boats to their assistance.

A little colony encamped in huts at Woodland Village, South Wales, was hard hit by the tempest. Sixteen huts were wrecked in the storm of last week and the gale completed the disaster, wrecking the remainder. About 500 persons were deprived of their humble homes and compelled to seek temporary shelter in public buildings while their furniture was stored by the company that owns the huts.

The gale howling over northern and western France brought down chimneys and uprooted trees. Telegraph and telephone service was paralyzed. No fatalities were reported from France.

Weather predictions were that another gale was racing across the Atlantic and was due in England tomorrow.

AUTOMOBILE ACCIDENT

VICTIM'S CONDITION CRITICAL

The condition of Floyd Long of 99 DeWitt street, who was injured in a motor car accident near Leary-Craft's Inn early Friday morning when a car driven by John Banks left the roadway and collided with the rocks, remains critical. At the Kingston Hospital, where Long was taken following the accident, it was found that he has sustained a fractured skull and other injuries.

Banks, who was arrested on a charge of driving a car without a license and also with injuring a person while driving a motor vehicle while in an intoxicated condition, was held by Justice Tiller of the town of Hurley Friday afternoon to await the action of the grand jury. He is in jail. He was also found guilty of public intoxication and fined \$10 or 10 days in jail.

Gordon Core, who was the third passenger in the car, was fined \$10 or 10 days in jail when found guilty of public intoxication. Sentence was suspended in his case. The arrests were made by Trooper Coons who was summoned shortly after the accident.

NEW CHINA RESTORES OLD CHINA'S MANNERS

Foochow, China, Nov. 24 (P).—The ancient friendliness and courtesy of China, declared by some to have been forgotten during the red episode of 1927 and still more emphatically said to have been cast aside by the more aggressive younger generation of Chinese, still exists to a marked degree in the interior. In the view of missionaries stationed inland from the port cities.

An American missionary family resident in the interior from here decided to return to America, and the last two weeks in China were given over to attending banquets tendered by his Chinese friends.

Kingston Police Department Celebrates Thirty-Seventh Anniversary of Organization

Rear row—Officers Leonard, Van Buren, Hess and Burger.

Next row—Simon Wood, Officers Roedel, Boss, Bowser, U. Healer, Entrott, Robert Healey, Sachloff, Schick.

Next row—Motorcycle Officer Soper, Officers Murphy, Reardon, Relyea, Welch, Camp, Fitzgerald, Fallon, Harnen, Martin, Keresman, Brophy, Dempsey and Motorcycle Officer Fatum.

First row—Sergeant Simpson, Commissioner Rowland, Commissioner Cashin, Mayor Dempsey, Chief Wood, Commissioner Beichert, Commissioner Connelly, Sergeant Phinney.

Thirty-seven years ago, on May 15, 1891, Kingston's police force was organized with Chief Stephen D. Hood and Sergeant Thomas J. Murray in charge. The patrolmen were James D. McIntyre, Thomas B. Cullen, George Roach, John Kiernan and William Shuberg.

The bill creating the police force also specified that the constables who were serving at the time should act with the force. There were four constables at that time. They were Thomas Johnston, John Sullivan, "Jack" Barry and Michael J. Cahill. Mr. Cahill was appointed a sergeant of the newly created police department.

The department now takes its own finger prints and photographs of those accused of major crimes in the city.

This year a practical course of police training was instituted in the department. The course will give the men a thorough knowledge of existing laws and methods of practical police work which will place them on a better footing to carry out their work and will enable them to explain laws more fully to citizens with whom they come in contact.

The department is now entirely motorized, being equipped with two motorcycles, a Dodge sedan for patrol duty on the outskirts of the city at night, and a Franklin sedan used for regular police work and also to convey prisoners to and from the jail. The city ambulance is also maintained by the department.

At the present time the department is composed of the following members: Chief of Police J. Allan Wood, Sergeants Charles Phinney and James V. Simpson, and Patrolmen William J. Reardon, William Hess, Arthur J. Dempsey, Robert F. Healey, Charles J. Murphy, James E. Welch, Raymond F. Sachloff, Elbert L. Soper, James P. Martin, Gurnsey Burger, Peter J. Camp, Peter Keresman, Frank H. Fatum, Winfield Entrott, Urban Healey, William T. Roedel, Raymond Van Buren, John J. Harnen, Edward J. Leonard, Lenville Relyea, Harold R. Bowser, Clarence W. Brophy, John J. Schick, Walter Fitzgerald, Ernest A. Boss, Joseph P. Fallon and Simon Wood.

Shortly after the death of Police-

man James Lawrence, who was fatally stabbed by James M. Byrd, a negro, on Thursday evening, February 6, 1919, the present police pension fund was established. Byrd, who was captured shortly after the stabbing, was convicted and died in the electric chair at Sing Sing on July 22, 1920. It is for the benefit of this fund that the first police ball in the history of the city will be held on the evening of December 7, in the state armory.

The affairs of the police board are controlled by the board of police commissioners, who have full powers. The board as at present constituted consists of Mayor E. J. Dempsey, who is president, and Commissioners Clarence S. Rowland, Joseph Beichert, Jr., William D. Cashin and Dr. William H. Connelly.

Most of the maps now in the schools are badly worn and somewhat out of date, especially those of Europe. These maps can be purchased out of the balance in the library fund amounting to \$206.92 and the balance in the apparatus fund amounting to \$710.58. The schools have not been well equipped with maps for the past eight or nine years. We have from year to year purchased less than one hundred dollars worth to replace maps entirely worn out.

To meet the requirements of the new syllab in history and geography, these maps should be purchased immediately.

There are better maps than those recommended here but the price is over \$13 per map which seems prohibitive. The maps listed above are good, standard maps for school use, mounted on spring rollers attached to a slat like the samples now in the office of the board of education.

City Hall Work Now Progressing

It is Expected That Building Will Be Completed and Ready to Turn Over to City Some Time in December.

Work on the restoration of the city hall is progressing and it is now said that the building will be completed and ready to turn over to the city some time in December. The most of the work that remains to be done is in the corridors and on the stairways. The majority of the rooms have been painted and the flooring laid and today the work of cleaning the windows in the building was taken up.

If the city hall is completed next month as expected it is likely that the common council will hold its first meeting in its new quarters on the third floor of the building on New Year's Day when the annual meeting of the council is held in the morning to receive the mayor's message.

Diphtheria Clinic Monday

Another of the series of free diphtheria clinics will be held at the Central Fire Station on Monday afternoon from 3 to 4 o'clock under the auspices of the board of health when antitoxin will be administered to children. Parents are urged to bring their children of pre-school age to the clinic to be immunized from diphtheria. These weekly clinics are well attended as parents are beginning to realize that the disease can be prevented by the use of the serum.

FRENCH EXECUTIONER GETS RAISE IN PAY

Paris, Nov. 24 (P).—Anatole Deibler, executioner of France, has had his pay raised to \$60 a month. He was getting only \$34.

That is his fixed retainer. He is paid in addition a certain sum, never made public, each time he lets fall the heavy sharp triangular blade of the guillotine on a condemned man's—or woman's—neck. He has long pleaded poverty and asked for more money, but he still owns a Paris building that helps keep the wolf from the door.

WEATHER FOR WEEK BEGINNING MONDAY

North and Middle Atlantic States: Fair weather, except rain Thursday and possibly Friday. Temperature considerably below normal Monday and Tuesday; warmer Wednesday and Thursday; then colder.

For the region of the Great Lakes: Fair weather with temperature below normal first of week, followed by rising temperature with some precipitation by Tuesday or Wednesday with mostly fair weather in closing days of week.

Fire Damaged Shultis House

Fire From Heating Plant Damaged Residence of City Treasurer E. T. Shultis Friday Night—Firemen Called to Third Avenue.

The fire department was called out Friday evening on two still alarms. The first was from 11 Third avenue, in the two-family house owned by Anthony Lukasiewski. There are two separate heating plants in the house. One of the heating plants was burning coal and a wood fire had been started in the other and the smoke from the burning wood backed up and filled the house. There was no damage.

About 11:30 o'clock that evening the firemen were called to the residence of City Treasurer, Edgar T. Shultis at 109 Maiden Lane and but for the prompt discovery of the fire and the quick response of the fire department the house would have been badly damaged. The city treasurer had just returned home with some friends after attending the bouts at the state armory, and was sitting in the living room only a few minutes, when flames burst up through a frame shaft leading to a window seat in one corner of the room from the heater in the cellar.

Recently some alterations had been made to the heating plant and a fresh air shaft had been built of beaver boards and run from the heater up to a hole that had been cut in the floor of the living room. This cold air shaft had ignited and the fire traveled along it and up through into the sitting room and then shot out of the window and ran up the side of the house as far as the eaves, scorching the paint on the outside of the house.

The hole in the floor of the sitting room had been built over the opening of the cold air shaft through which the flames poured. Fire Chief Joseph L. Murphy had charge of fighting the fire and the flames were confined to the sitting room, which was quite badly damaged by fire, smoke and water. In order to bring the fire under control it was necessary to turn a stream of water on it.

SMYRNA SWEEPS AHEAD ON TIDE OF PROGRESS

Smyrna, Turkey, Nov. 24 (P).—The first electric trolley line in Asiatic Turkey has just been inaugurated here under extraordinary conditions.

Proceeding each of the new electric trolleys, with only a few yards on the track between them, ambled one of the old horse-cars of fifty years' vintage, put there by order of the mayor so as to check the speed of the motorcars in the new cars behind who might lose their heads over the new-fangled electric machinery.

For five days the new trolleys bumped slowly, painfully, behind the old horse-car. Then the mayor, satisfied that the electric motorcars were running safely, cleared the tracks of the ramshackle antiquities and their plodding steeds.

Wall Street Stops for Breath

Transactions So Far Ahead of the Accountants That a Day Off is Taken in Order to Catch Up—Huge Volume of Business Done.

New York, Nov. 24 (P).—Trading on the floor of the New York Stock Exchange was suspended today as the clerical forces of brokerage houses attempted to catch up with the "Hoover Market."

The suspension was ordered during a record-breaking day which saw 6,942,300 shares traded in, greater by more than 100,000 than the previous day in the exchange's history. The work has been piling up in ever increasing volume since Nov. 7 and all other departments of the Stock Exchange were going at full force today in an effort to restore the books to some semblance of order.

Although the human machinery of the Exchange was expected to catch up today, there was little hope that anything further could be done to speed up the ticker. All sales volume has been left off the tape but despite this the ticker ran almost an hour behind the market yesterday. The new high speed printers which have been ordered will not be ready for operation before next fall.

Many brokers saw in today's action in suspending trading a precedent which probably will be followed so long as the market continues on its present rampage. There also was a movement afoot to reduce the trading day an hour but a majority of the members of the Exchange are said to frown on this proposal, preferring the Saturday suspension when necessary.

The trading day was shortened an hour during one week last May, but it did not meet with general approval. Although the November markets have exceeded those of last spring by hundreds of thousands of shares each day most brokerage houses said they were in better shape now than they were then. Their clerical forces have been expanded since then and now employees have had a chance to learn their jobs. Even so, many admitted they were almost hopelessly behind with their work and doubted if even today's suspension would give them sufficient time to catch up.

The sensational increase in trading also attracted greater demand for seats on the Exchange. A new record of \$530,000 was established yesterday on the last of three seat sales. It was said \$610,000 later was bid for a seat with no offer.

There was much profit-taking yesterday, which held gains below those forecast at the opening of the market before it was known the Saturday suspension had been ordered. In the first half hour of trading there was a turnover of 1,327,200 shares, which was at the rate of more than 13,666,000 shares for the day. It was the most turbulent buying session ever seen on the floor, old members said.

King George Has Pleurisy

Passed the Night Fairly Well and His Condition Has Improved Today—Queen Will Attend Concert This Afternoon.

London, Nov. 24 (P).—After passing a fair night, King George had improved today. For the first time it became known that pleurisy was present.

Announcement in the official bulletin issued at noon that His Majesty's improvement had been maintained gave further relief to public anxiety over the monarch's illness. Despite the appearance of the word "pleurisy" in the physician's report, members of the palace household gave no evidence that this had caused any additional concern.

It is understood that pleurisy in the king's type of lung congestion is nothing out of the ordinary and that therefore there need be no anxiety on this account.

The visit of Lord Dawson of Penn and Sir Stanley Hewett, the king's physicians, to Buckingham Palace this morning was rather an extended one. They arrived there shortly before ten o'clock and remained for about two hours. At noon the following bulletin was issued: "The king passed a fair night and improvement was maintained. Pleurisy which commonly accompanies this type of congestion of the lungs continues to be a prominent feature."

While the physicians were at the palace it was learned that the bacteriologist called to the royal residence Thursday night was Dr. Lionel Ernest Howard Whitby of the Bland Sutton Institute of pathology at Middlesex Hospital.

Denoting the lack of tension in the royal family over the king's condition it was officially announced during the forenoon that the queen would attend the Royal Choral Society's concert at Albert Hall this afternoon. Word also was passed out from the palace that his majesty was maintaining excellent spirits.

NEW GUADELOUPE WILL ARISE FROM WRECKAGE

Pointe-A-Pitre, Guadeloupe, Nov. 24 (P).—Hurricane-torn Guadeloupe is to be rebuilt in the same manner and by the same procedure as France's war devastated departments.

The plan provides for the electrification of the whole island, in addition to reconstruction of public and private property destroyed by the hurricane.

Hurricane year is to be Year One of the reconstruction, said Ambassador Claudel. Modern shipping facilities, wharves and harbors to rival those of Porto Rico, Cuba and Trinidad will supplement the electrical installations.

Revenues from the Daves Plan will be utilized in the reconstruction work, just as for the devastated regions of northern France.

Sea Invades Hoover Quarters

But the President-Elect Says He Has Seen Worse and Smiles as the Water is Swabbed Out of His Sitting Room.

U. S. S. Maryland, Nov. 24 (P).—As the Maryland bearing President-Elect Hoover on his Latin American tour passed into the Gulf of Tehuantepec late last night it ran into unusually heavy seas, with the result that Mr. Hoover's sitting room was flooded through the portholes.

Little damage was done but attachés seemed concerned over the matter. "This is terrible," said one as Hoover came to the door to view the situation.

"Oh, I've seen worse," replied the President-elect, smiling.

The water was swabbed up by a member of the crew and the portholes closed, making the quarters watertight. The Maryland today was riding a gale which at one time attained a velocity of seventy miles an hour.

Federal Men Arrest Brown

Friday afternoon Federal agents from the Kingston office paid a visit to 351 Broadway, this city, and there seized a quantity of beer, wine and cider.

At the time of the raid the agents found Michael A. Brown, Jr., the bartender in charge and he was placed under arrest on a charge of sale and possession of intoxicants. On being arraigned before U. S. Commissioner Arthur C. Connelly later Brown waived examination and was held in \$1,000 bail for appearance in U. S. District court in New York.

LOCAL CASES BEFORE PUBLIC SERVICE COMMISSION

New York State Public Service Commissioner Luna will hear two cases involving petitions of the New York Central Railroad Company. Tuesday morning at Albany. The first will be at 10:30 o'clock, Case 5167: Petition to discontinue services of an agent at its West Camp station in town of Saugerties, Ulster county, (West Shore R. R. lessor). The second hearing will be at 11 o'clock, Case 5121: Petition to discontinue Forest Glen station in town of Gardiner, Ulster county (Wallkill Valley Branch, West Shore R. R. lessor).

GAMBLING PAYS LARGE DIVIDEND TO CASINO

Dieppe, Nov. 24 (P).—Under new management, the Dieppe Casino showed an increase of \$80,000 in gambling profits. Baccarat tables brought in most of the increase. Total profits at the Casino were \$1,731,395 francs, about 4,500 of which were contributed by about-minded gamblers who left their money on the table.

Auditorium in Great Demand

Board Grants Three Requests—New Maps Needed in the Schools Are to Be Purchased.

There was considerable business transacted Friday evening at an adjourned meeting of the board of education. Those in attendance were Trustees Betz, Hayes, Matthews, Terry and President Flemming.

A request from the Senior class of the high school for permission to use the high school gym on November 25 for their annual dance was granted on motion of Trustee Betz. The hour was fixed at 11:30 for closing and Trustees Terry and Hayes were appointed chaperones.

A similar request from the Junior class for their dance on December 21 was granted on motion of Trustee Betz. Chaperones for that dance are Trustees Betz and Beeres.

The Parent-Teacher Association of No. 5 school asked permission to use the high school auditorium on January 11 or some Friday evening that month for a play to be given by the members of the association. The net returns will be devoted to welfare work in No. 5. On motion of Trustee Betz the permission was granted under the usual terms.

Trustee Terry for the finance committee offered the November payroll amounting to \$29,828.02 and also bills amounting to \$4,238.56 for payment.

On resolution offered by Trustee Terry the finance committee was authorized to audit the December payroll and the president and clerk were authorized to draw warrants for same. This action was taken since the next meeting of the board will be on December 21, the evening of the closing day for the Christmas vacation period and after teachers have left for their vacation period.

The supplies committee was authorized to enter into a contract with Fred C. Winter as of December 1, for care of the school pianos for the ensuing year. The contract price is \$65.

Trustee Betz for the supplies committee brought to the attention of the board the necessity of additional up-to-date maps for the schools. In many of the schools there is a need of several maps, particularly so of Europe, which has changed very materially in the past few years, making old maps obsolete. The supplies committee offered the following report and made the following recommendation as to maps needed and after a discussion was authorized to purchase maps:

Most of the maps now in the schools are badly worn and somewhat out of date, especially those of Europe. These maps can be purchased out of the balance in the library fund amounting to \$206.92 and the balance in the apparatus fund amounting to \$710.58. The schools have not been well equipped with maps for the past eight or nine years. We have from year to year purchased less than one hundred dollars worth to replace maps entirely worn out.

To meet the requirements of the new syllab in history and geography, these maps should be purchased immediately.

There are better maps than those recommended here but the price is over \$13 per map which seems prohibitive. The maps listed above are good, standard maps for school use, mounted on spring rollers attached to a slat like the samples now in the office of the board of education.

Higher Margin Asked by Brokers

New York, Nov. 24 (P).—With the week trading on the New York stock exchange and the ticker still showing far behind the market, many of the Wall Street brokerage houses are asking for higher margins for the second time in a month have raised their margin requirements. One firm announces this schedule, which is typical of the requirements of the other houses:

Stocks selling under \$15 a share, 10 per cent in full.
Those selling between \$15 and \$25 a share, 50 per cent of market value.
Stocks selling between \$25 and \$50 a share, 10 points.
Those selling over \$50 a share, 10 per cent of market value.
On high-priced and highly speculative stocks, special margins.
Fifty shares of any one stock is the minimum that will be carried on margin.

Stocks listed on outside markets, except Standard Oil shares and issues of banks and lending institutions, require as good collateral as loans made only on cash basis.

Only seasoned issues of stocks listed on Chicago Stock Exchange will be carried on margins, ranging from 5-10 to 50 per cent.

Market for Fruits And Vegetables

New York, Nov. 24 (P).—(State Department of Agriculture and Markets)—Western New York white Danish cabbage prices sharply advanced today in a decidedly stronger market. Supplies were moderate and the demand was quite active. Jobbing business on bulk stock at terminals in New York city and Brooklyn was transacted at \$45-\$50 per ton. Red Danish realized chiefly \$60.
Price changes on white potatoes were small and unimportant. Although the demand was again slow the undertone of the market was steady. Ordinary quality round white potatoes from the western part of the state peddled out at \$1.80-\$2 per 100 pounds. Most of the best Green Mountain stock sold at \$2.25.
High prices continued to prevail on egg plants and green peppers. Supplies were limited but the demand was less active. Sales on Florida egg plants were consummated at \$4-\$7.50 per 1-3 bushel crate. Green peppers in similar containers brought \$6-\$11.
The Pacific Coast lettuce supply was more than adequate to meet the trade requirements and in consequence prices slumped in a weak and sluggish market. Crates of 42 and 60 heads of the iceberg type jobbed out at \$4-\$5, occasionally as high as \$5.50. The Big Boston variety from New Jersey in crates of 24 heads realized 50c-\$2.

ICE CREAM AND SOUP CAUSES FOR A DIVORCE

Chicago, Nov. 24 (P).—Charles L. Johnston, Jr., broker and former national tennis star, has been divorced by Mrs. Margaret H. Johnston on charges of cruelty because he flicked ice cream at her and spilled soup on her.
It was Mrs. Johnston's second divorce, she having divorced her first husband, Ralph H. Burdick, former western doubles champion in tennis.
Mrs. Johnston was given \$1,000 monthly alimony for the support of herself and their son.

FIGHTING EXPECTED BY BULGARIAN ARMY

Sofia, Bulgaria, Nov. 24 (P).—Troops were marching today on Petrich, stronghold of Ivan Michailoff, leader of the Belligerent faction of the Macedonian Revolutionary party. The order for the soldiery to arrest Michailoff came after an exchange of messages of defiance between the leader and the government. It was expected that the bitter fighting would ensue in the attempt to capture the revolutionary.

ELEANOR GUNN ON FASHIONS
EVENING WRAP OR HOME IN TIME, WHICH IS TO ME.
 New York.—There are often marked points of similarity between elaborate negligees and simple evening wraps. Bright hued velvet bordered with fur or feathers make an appeal to stay at home and to theatre goers. Just now several innovations in trimming are of interest. There are round fur boas detachable or otherwise in lieu of the more usual collar treatments and there are new ways of admitting fur to cuff or border.
 For purposes of economy as well as effectiveness, a collar may be fur on one side only. The reverse side may be shirred velvet, if velvet is the material used for the wrap, which seems to be the case nine times out of ten. The robe in time may be very elaborate, and long or short according to the wearer's preference. Most women hail with delight the opportunity of dressing up in trailing garments at home, and

PICNICS IN CEMETERY ARE MEXICAN CUSTOM
 Mexico City, Nov. 24 (AP).—The Mexican authorities have forbidden the holding of picnics in Mexico City's largest cemetery.
 It is a Mexican custom to take baskets and bundles of food to the graveyards on the "Day of the Dead," which corresponds on the calendar to All Soul's Day. Theoretically the refreshments are taken to the cemeteries as an offering to the dead, but the living do the eating and drinking with considerable enjoyment.
 Families, groups of friends, relatives and neighbors form parties. This year, however, the largest cemetery turned away swarms of picnickers.
ULSTER PARK.

 are inclined to them in chiffons and georgette, in crepe satins, in metal

cloth and in the new transparent velvets, to say nothing of lace metalized or otherwise.
 Even wraps of this vintage are inclined again to voluminous lines. The day of the straightline rather severe evening coat was short-lived. Those who follow the fashion without thought of financial consequence are not matching their wraps to their dresses, but rather selecting them to enhance the effect of the color of each, or emphasizing the tone of the gown by the choice of regal black velvet, usually coupled with white fox. The silhouette of the frock beneath is also followed, which is another way of saying that coats are uneven and have a downward tendency at back or side.

What the Smart World Is Wearing
The Bright Hued Dress With Softly Treated Collar Line
 New York.—While prophets have a lot to say about the importance of the tailleur, and even insist that more suits are worn at this time than is consistent with the season, it is the dress and coat which makes the ideal costume for the average woman.
 The habit of selecting bright hued dresses for wear under fur or cloth coats has done a great deal to brighten dark November days, days in which velvets have had an important place. Speaking generally printed dresses are velvet and silk ones make up for the lack of design interest in the brilliancy or richness of their color. Bright reds, purples and bright blues make the widest appeal, irrespective of their material.
 Soft collar lines are becoming the rule. The youthful box, so much acclaimed in Paris reports and so greatly worn there, is one of the delightful ways of educating women to don collars, a costume which had become almost obsolete. The lace or lingerie collar, and draped effects of self fabric are other neck finishes which are especially designed to look well with a coat.
 In all recent Paris reports one finds mention of scarfs and other arresting neck finishes. Necklines are of several forms. Lanvin sponsors the Puritan collar matched with cuffs in character. Jabots, yokes, and bertha treatments are also to be remembered when the crucial moment arrives to select the neckline.

The annual Memorial Service. 9 a. m. German service. 10 a. m. English Sunday school. 11 a. m. English service. Text: 1 Thessalonians 4:13. Sermon theme: "Comfort from God." 1. For the Dead. 2. For the Mourning. This being our annual Memorial Sunday, the sermon will be in keeping with the day. Especially are all those invited who in the past year have lost their dear ones. The names of those who have died during the year will be read from the pulpit preceding the sermon. The Memorial sermon will benefit everybody, for who has not at some time in life lost a dear one. Come and be comforted and strengthened with the assurance of a happy reunion in heaven. 7 p. m. Luther League devotional service under the leadership of Fred Paulus. Monday night at 8, special meeting of the Sunday school teachers. Tuesday afternoon at 3:30, confirmation lessons. Tuesday night at 7, the Junior Luther League will render a Thanksgiving program for their relatives and friends, with a social time following. Refreshments will be served. On Thanksgiving Day in the morning there will be two services, one in German at 9 and the other in English at 10 o'clock. Kindly remember that the English service will begin at 10 instead of 11 o'clock. Thus all our members will have an opportunity to attend church and have time to arrange for dinner. We trust that our entire congregation will be encouraged to attend not only by the proclamation of our honorable President, but also by the offering of gratitude to God. Select Commercial and Industrial Lighting Fixtures with Extreme Care

YOU are entirely dependent on your lighting fixtures to provide your illumination requirements. It is essential, therefore, that you select these fixtures with extreme care, making certain that in their operation you fulfill all the fundamentals of effective lighting. These are:—

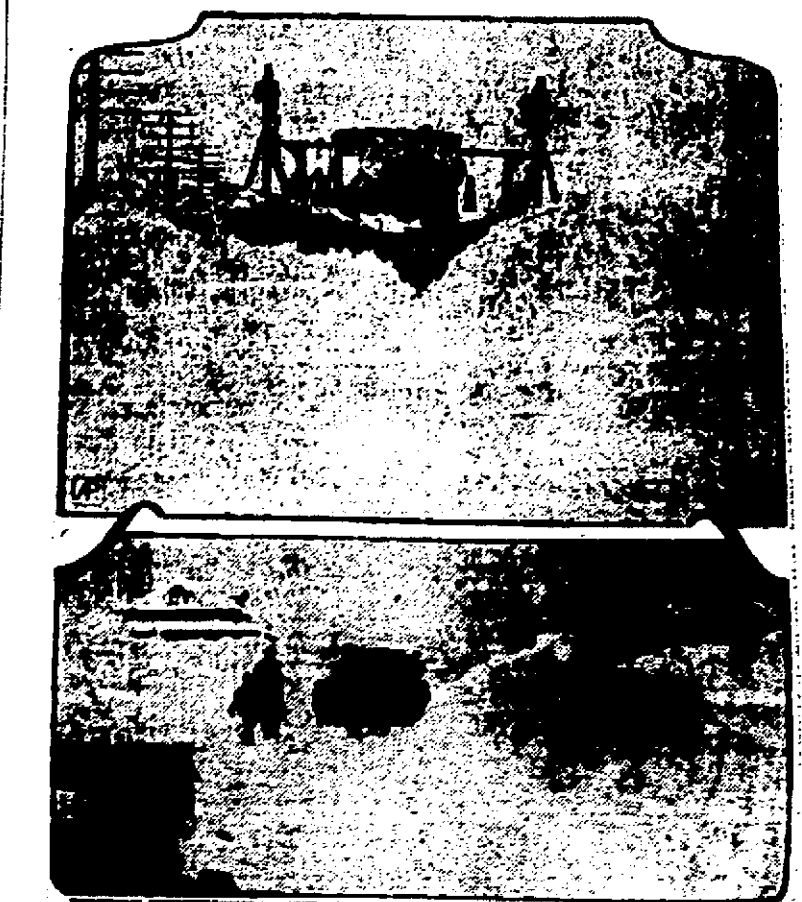

1. There must be adequate light for maximum working conditions or for general illumination.
2. There must be freedom from both direct and reflected glare.
3. Lighting units must be so designed and so located as to eliminate harsh shadows and sharp contrasts.
4. There must be a fair degree of illumination on side walls and ceilings.
5. The lighting equipment should be suitable for the specific service conditions under which it is to be used.
6. The lighting system should be simple, reliable, and easy of maintenance.

Our lighting representatives, who are thoroughly familiar with the details and planning of installations, will be glad to assist you in making a survey of your plant or store, and from such a survey prepare an installation layout to meet your definite requirements.

After you are convinced that such a layout meets your requirements, we would urge that you consult further with our lighting representatives, or with local electrical contractor-dealers for advice concerning the selection of lighting fixtures designed and constructed to best meet the needs of your conditions.

Michigan Prepares For Annual Battle On Perilous Snows

Snow, as hazardous to human life as beautiful in the northern forests, yearly presents a problem to clear such blockades of snow as that shown above, which often cut off whole communities from sources of food and communication. Below is a typical upper Michigan snow belt scene.

Choir will meet on Saturday at 2:15 p. m. Communion will be held Sunday morning and evening. December 2. The annual supper of the Ladies' Aid and Sewing Circle will be held Wednesday, December 5. The congregation will unite with the other churches of the city in the union Thanksgiving service at the high school on Thanksgiving morning.

HUNGARY CLOSING BOOKS ON BIG TOURIST SEASON
Budapest, Nov. 24 (P)—Hungary had a record tourist season this year. Most of the visitors were Americans. Many hundreds of Hungarians returned the visit of the Americans to the United States, and also renewed their acquaintance with their country of origin. It is estimated that their expenditure was over \$1,000,000. To this amount was added the expenditure of several thousands American-born visitors who came to Hungary to take the cure in the famous spas for which Budapest is renowned.

The Outstanding Chevrolet of Chevrolet History - a Six in the price range of the four!

The Chevrolet Motor Company announces The Outstanding Chevrolet of Chevrolet History... a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past... notable as its engineering triumphs have proved themselves to be—this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low-priced field an entirely new measure of performance, comfort, beauty and style—but it is sold at prices so low as to alter every previous conception of motor car value.

The new six-cylinder valve-in-head engine—developed from more than a hundred motors designed especially for this sensational car—stands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed and faster acceleration—it offers a type of performance that is literally astounding... even to those who have been driving cars costing hundreds of dollars more.

Throughout the entire speed range, it performs with a smoothness and quietness of operation that have never before been approached in a low-priced automobile. At the slower speeds of city

traffic it idles along with wonderful silence and ease. On boulevards and country roads it responds with an eagerness that is a constant delight. It takes the longest and steepest hills with an abundant reserve of power that is a source of pride to the driver. And its economy of operation averages better than 20 miles to the gallon of gasoline!

This revolutionary performance has been achieved as a result of the greatest array of engineering advancements that Chevrolet has ever announced. A high compression, non-detonating cylinder head... a new heavier crankshaft, statically and dynamically balanced... automatic lubrication of the entire rocker arm mechanism... semi-automatic spark control... hot-spot manifold... gasoline pump and filter... new and larger car-

buretor, with automatic acceleration pump and improved venturi choke... fabric camshaft gear... heavier driving gears... heavier differential gears... improved crankcase breathing system... improved lubrication... new 4-wheel brakes that are powerful, safe and quiet under all conditions—these indicate the importance of a group of engineering advancements that embrace every major unit of the entire chassis.

In appearance, this Outstanding Chevrolet is destined to become an automotive sensation—so smart, so stylish and so distinctively appointed that it rivals the costliest custom creations. The new Fisher bodies are longer, lower and roomier with adjustable driver's seat in all closed models—and reveal the matchless artistry of Fisher designers.

With their modish new colors, their smart dual mouldings and their distinctive concave pillars, they achieve a degree of original beauty that has seldom been equalled in motor car design.

You are cordially invited to visit our showroom and secure complete and detailed information on this sensational new car which will be ready for delivery beginning January 1st.

British Steamer Reported Sinking

Capetown, South Africa, Nov. 24 (AP).—The British steamer Cariboo was reported to be sinking today 25 miles southwest of East London. The crew was said to have abandoned her and been picked up by the British steamship Windsor Castle.

Captain Mitchell of the Cariboo remained aboard his sinking ship. Heavy weather prevailed last night when the vessel left East London, where she had been loading cargo for the United States.

Later the vessel sent a wireless message stating she was aground at Kalkamma. But afterward the ship was reported under her own steam.

It was believed that the Windsor Castle was standing by hoping to save the captain.

Mrs. Hayes, for the rules committee, offered a resolution that when the board adjourn it be to meet on December 21. Adopted.

Superintendent Michael under new business brought to the attention of the board the matter of musical instruments for the high school orchestra. The orchestra has been equipped with instruments purchased out of proceeds from concerts and plays. Mr. Sime, director of music in the city schools, has a chance to purchase several musical instruments which were formerly used in the Kingston Symphony Orchestra, now disbanded. These instruments are of high grade and almost new. The purchase price is but \$200. He asked the board to make some arrangement for advancing the money for the purchase now so that the instruments might be used in the concert which will be given by the orchestra after Christmas vacation. The board felt that it could not advance funds or loan the funds of the board for such purposes but decided to make some arrangement whereby the instruments might be secured. The instruments will be paid for out of the proceeds from the concert to be given.

In anticipation of the increased registration at the high school after the mid-year examinations Superintendent Michael asked that some provision be made to care for these students. He estimated there will be at least 100 new students at the high school. The supplies committee was authorized to investigate and purchase 12 desks for hall A and B at a cost of \$11 each and to purchase 4 biology tables at \$36 each. There is room in the building now for this additional equipment and Mr. Michael asked that action be taken now so that the furnishings would be ready in January when the new students enter.

The board received the following report of Superintendent Michael in regard to the school savings account and then adjourned:

PARIS USES RUBBER CARPETS ON STREETS

Paris, Nov. 24 (AP).—Paris is putting down a rubber carpet at dangerous street-crossings and on steep hills to prevent automobiles from skidding. This novel method of paving is part of the war on asphalt waged by city engineers.

Asphalt, which has a very bad reputation with automobilists in the wet climate of Paris, is still paving fifteen per cent of the city's streets, though the highways department has promised to do away with it altogether.

It will take eight years to rid Paris of smooth asphalt. Meanwhile, a kind of rubber carpet, laid on the asphalt, is the best remedy engineers have been able to devise. Rubber mixed with bitumen composes it. One such "carpet," laid down as an experiment in 1926, is still in good condition, and similar ones are to be undertaken at once.

Concrete will also be largely employed in repaving the streets. Concrete has given excellent results, as an anti-skid surface.

American Girl's Veil In Marriage To Count Once Gift Of Queen

Miss Estelle Manville, American heiress, will be married to Count Folke Bernadotte of Wisborg, nephew of the King of Sweden, in the veil that Queen Sophia gave the count's mother. The couple will be married at Pleasantville, N. Y., December 1.

RUSSIA TAPS FOR OIL IN NEW LOCALITIES

Moscow, Nov. 24 (AP).—A program of exploration and research for new oil and gas fields during the next five years has been proposed to the Soviet geological committee. This work will be concentrated in the center of Russia and also along the sea coast at points suitable for the export of oil. The Soviet oil trust has started boring operations on the Kerch Peninsula near Batum. A preliminary report says that there are signs of existence of oil near Sukhum, also in the neighborhood of Odessa and the estuary of the Danester.

Banking House Opens Monday

The newly remodeled banking house of the Kingston Trust Company at Main and Fair streets, which has been closed for several months during construction, will again be in use commencing Monday morning. Patrons will find one of the most modern banks in the vicinity at their disposal when the doors are opened for business Monday.

An invitation is extended to patrons and friends to inspect the new banking house this afternoon and evening between the hours of 2 and 5 p. m.

During alterations the bank building was conducted from temporary quarters in the old Westway building at 46 Main street. The building when vacated by the Trust Company will be remodeled and furnished and will shortly be opened as an inn and coffee shop.

Another Man Bitten by Dog

The Benedictine Hospital reported to the police Friday afternoon that one of its workmen, Constantine Gonsens, had been severely bitten on the fingers by a stray dog in the rear of the hospital. A search for the dog failed to locate the animal as it had disappeared after biting the man.

Thanksgiving Service.

A special Thanksgiving service will be held in the South Rondout Methodist Church Sunday night. The pastor, the Rev. Samuel Ardron, will preach a sermon appropriate to the occasion. A song service will precede the preaching service. All are invited to join in.

Arrest Jordan

As Owner of Still

James Jordan was arrested by federal agents from the Kingston office on Friday charged with being the owner of a small 30 gallon still which the agents located in the garage building located at 140 Broadway, this city. The agents also found a small quantity of cider on the premises and the still evidently was being used to make applejack. Jordan, who is the alleged owner of the still, was arrested by the agents some time ago for possessing a still near Binnewater, and at that time was given a suspended sentence.

Arraigned before U. S. Commissioner A. C. Connelly, Jordan was held in \$1,000 bail for appearance later in court.

PRINTERS STRIKE

AFFECTS ALBANY PAPERS

Albany, Nov. 24 (AP).—Albany is taking its news in highly condensed form this morning from a type-written, 5-sheet newspaper, unique in the annals of the city's journalism.

Across the regulation-size front page of the morning Knickerbocker Press the steamer, "Printers strike on four Albany newspapers," tells the story.

Last night all members of the composing room forces of the four local newspapers walked out. The editorial staff of the press, as first to feel the effects, called the services of its artists, photo engravers, stereotypers and pressmen, and had an edition on the streets at 12:30 this morning.

Battery A Drills Monday.

Battery A, First Battalion, 156th Field Artillery, will not hold drill Sunday morning as it has for some time. The battery will have its weekly drill Tuesday night at the armory. The cessation of Sunday drills will not prevent members of the unit from standing in A Battery from being the horses of the battalion.

Coffey and Zinna Win Armory Bouts

Coffey Shows Improvement by Beating Deschner—Nick Zinna Exhibited His "It" in Trimming Clever Joe Haley—More Fights December 10.

Vince Coffey scored another win in his comeback attempt by beating George Deschner of the New Jersey Coast Guard to the decision in the feature six rounder at the armory Friday night. The scrap witnessed by a large number of fans did not hold as much interest as some of the tilts that preceded, especially the Nick Zinna-Joe Haley, semi-final set, which was decisively won by Zinna.

There was one knockout on the card, that of Joe Starr, West Point, by Chic Davis of the 369th Infantry, New York city. In the other scraps on the program Ray Halverson of Newburgh fought a draw with Ivan Hawes of the 369th Infantry, who substituted for Sammy Scarlett; Dewey Van Buren of Kingston scored a win over Mickey Farkus of Newburgh and Kid Rash of the 369th Infantry took a trimming from Andy Young of New York city.

Coffey Aggressive. In the feature attraction of the evening Vince Coffey, local pugilist, brought the scrap to George Deschner, who found Coffey at the outset of the set to stop plenty of Vince's punches with his face in the closing stanzas. Both boys knew how to clinch and it was not until the very last round that the milling began to satisfy most of the fans. This session brought action that resulted in a blood smeared face for Deschner, who caught one of Coffey's hard lefts on his nose. The fight exhibited that Coffey is in better condition than when he first fought in the armory. By beating Deschner he likely will receive some recognition for the big Dutchman is slated for a tilt tonight in a popular New York city club.

Zinna Stars.

Joe Haley of Newburgh is a very clever boxer and besides being a smart ring man can use either hand effectively. But the Newburgher of 158 pounds was taught a boxing lesson, the value of the weave and bob style and the effects of a hard punch by Nick Zinna, 140 pounder of the McCabe-Conway soldier stable here, in their six rounder.

Zinna asserted himself in the first round and hammered his clever little opponent without letup until the final gong. In the second round Nick began to use his crouching antics that completely baffled Haley. The Newburgher was kept in the air throughout the tilt for he never knew just what to expect from the husky Italian, who reddened his face and stomach with powerful blows. Zinna's variety of punches had Haley in a bad way by the end of the fourth round and his rooster was afraid that his idol would not last the two stanzas that followed. He stuck it out however, but was helpless at the hands of Kingston's outstanding pugilist, Nick Zinna.

Zinna is slated to meet Ted Karas at the 22nd Engineer armory, New York city, next Tuesday. It is expected that from then on he will be doing his turn regularly in New York rings for men high up in the National Guard fighting circles, including Jimmy Ambrose, matchmaker, admire his style.

Starr Knocked Out.

Joe Starr of West Point, who entered the arena at 144 pounds, went to work on Chic Davis, 145, and many predicted that the scrap would be the former batter's within a short period. The burly negro, however, whipped some heavy ones to Starr's body in the second stanza, that began to buckle the West Pointer's knees. Starr made a strong comeback in the third and had Davis almost out, but the negro weathered the storm of punches that got weaker as the round aged. Starr from then on began to show signs of weakening and dropped to the canvas for the count of ten in the fifth round from a right to the bottom, that traveled about six inches.

Ray Halverson of Newburgh and Ivan Hawes of New York, who weighed 120 and 118 pounds respectively, tugged away on even terms for six rounds. The draw was the second fought by the two boys within seven weeks as they turned in a like performance at the 212th Anti-Aircraft armory, New York.

Dewey Van Buren won his fight with Mickey Farkus of Newburgh over a period of four rounds. The Kingston man failed to knock out his opponent which he apparently tried to do. Farkus is skilled at holding and tied Van Buren up whenever he tried in-fighting.

Kid Rash of the 369th Infantry, who fought main attractions at the armory, opened the show Friday night with Andy Young of New York city. Young got the decision, which he deserved.

Charlie Goldman, who fought plenty of good boys in his day, was the referee at the armory and proved an efficient third man in the ring. Bill Singer, local business man and Fred Haverhorst of Walk Millers Health Camp at Edenville were the judges and Samuel J. Ribber did the announcing. Dick Malone did his usual turn as timer.

It was not announced Friday when the next card of bouts would be held but it is understood that such entertainment will be held at the armory Monday, December 10.

Y's Men and Comforters Win

At the Y. M. C. A. court Friday night two of the hardest games of the season were played. The Y's Men and the Congregationals played the feature game and the Y's Men's Club took the contest by a score of 25 to 28. In the preliminary game Trinity Fire was beaten by the Comforters, 24-26. In the latter tilt the score changed hands many times throughout the game.

The Congregationals got the jump on the Y's Men in the first quarter. Before the "Y" team got started the Congregationals had rolled up a six point lead when Kias found the hoop for a two pointer. McLane then followed this with two shots from scrimmage and Flemings also found the hoop for a score. This was all the points that the Y's Men gathered in the first quarter while their opponents succeeded in making six field goals. The score when the first period ended was 12 to 8, with the Congregationals leading.

It was in the second quarter that the Y's Men jumped in the lead. After Hinds scored from the side of the court Kias sank a field goal which tied the score. From then on the Y's Men took the upper hand and they played superior basketball, but in the third quarter the Congregationals again succeeded in tying the score. When the second period ended the Congregationals had failed to tally as the score indicates and on the other hand the Y's Men had added 12 points to their score through successive scoring on the part of Kias and Hinds. The score as it stood when the half ended was 18-12 with the Y's Men in front.

The third quarter saw the Congregationals again threaten to take the lead when they held the Y team scoreless until they rolled up the same number of points. The tie came at 18 all but soon after this the Y's Men again pulled away and from then on they held the lead by a safe margin. When the third period was called the score was 25-22 in favor of the "Y" representatives.

In the last quarter the Y team staged a scoring rampage. Their floor and defense work was the best they had yet displayed this season and that told the story. Shafer rolled up fourteen of his sixteen points in the last period, being held to a single field goal in the first half. Carpio, who was held scoreless through the first three quarters, found the hoop three times in succession to cut down the Y's Men's lead. However this could not be compared with Shafer's scoring for when the final whistle sounded the "Y" team was the victor 35-28.

Comforter Wins.

In the preliminary game two church teams, the Comforters and the Trinity, clashed. The Comforters went away ahead in the first quarter but when the second quarter ended the story was different. The Trinity team had jumped in the lead, which seemed to surprise the fans when the score was announced by the referee.

It was the first game of the season for the Trinity team and when taking this into consideration they put up a good battle. It was through Jones that the Trinity squad jumped in front in the second quarter. He dropped them often and it was in this quarter that he secured most of his points. Thompson was the next best scorer for his team, having five points to his credit. Roosa was the main point getter for the Comforters with 18 marks beside his name.

MINISTER THOMAS PRESS

POSTERS MENTAL LAXITY

London, Nov. 24 (R)—The Rev. Sidney Arthur Alexander, canon of St. Paul's Cathedral, believes that suspension of publication of all newspapers for a month would be a great benefit to society.

"Modern journalism—with all its great qualities and achievements—is largely responsible for the intellectual degeneracy of our day," said the canon during a sermon in St. Paul's.

The reading of modern newspapers induces chronic restlessness and destroys the power of concentration, said the clergyman.

Middies Lose to Highland Five

Highland Hose Company basketball team accomplished what they had hoped to do since Middletown defeated them in Orange county some time ago by scalping the Middies 21-29 at Smith's Hall, Highland, Friday night. Maury McDermott, who recently signed to play center for Highland, had a lot to do with the team's win for his presence seemed to stimulate the fire laddies.

Highland did its best work in the second half of the contest and overcame a big lead held by the Middies, who outscored the firemen to the tune of 17-7 in the first session. Pete Bruck, Kingston boy, who holds down right guard berth for the Highland team, showed up well in the clean, fast game played by both aggregations. Pete had a hard man to play in Frank, the Middies left forward, who recently starred in a game with the celebrated Stores of Poughkeepsie. It was predicted that Frank would lead the whole Highland team on their toes. He was able to score but three times from scrimmage, owing the Bruck's guarding. Frank made good five foul tries.

Bruck got plenty of whoopee from the Highland rooters during the second half when the firemen started to emerge from their position below the Middies. Pete's team gained a one-point lead on the boys from Orange county, then Bruck dropped his only field shot of the game, registered two foul shots and put the Highlanders five points in the lead for the time being.

Highland fans are now awaiting the game with the Wing Food A. C. of New York city which is to be played in Smith's Hall next Friday night. Previous to that game Highland will do battle with Slates Five of Poughkeepsie at the Bridge City. McDermott will not be with Highland for this contest, but the fire laddies will have a good center in Eddie Kane, court star from down the river.

Red Shields Won At New Paltz

Dan Joyce's Red Shields handed a 55-24 trimming to New Paltz High School varsity at the Normal School court Friday night. The Salvationists got off to a good start and finished the first half by leading the school boys 31-12. Dan Joyce topped the high point getters of the tilt by garnering 24 markers for the Red Shields. Smith followed with 14 for the same quintet. PORT EWEN

Port Ewen, Nov. 24.—Exodus Council, No. 42, Sons and Daughters of Liberty will observe Thanksgiving day by attending the Reformed Church service Wednesday evening, November 25, in a body at 7:30 o'clock. The address will be given by the Rev. Frederick Baker, pastor of the Methodist Episcopal Church, instead of the Rev. Philip Goertz as erroneously announced Friday evening.

The play "Deacon Dubbs" was given at Chichester Hall, Phoenix, last evening to a crowded house. Several added attractions between the scenes have been inserted and are most pleasing to the audience. This play is something worthwhile, each actor acting his part in a manner that makes the play very attractive. No one should miss seeing it when given for the second time in Pythian Hall, Port Ewen.

There was a large attendance of men at the men's supper last evening in the Methodist Church House. The Priscilla Society gave a very wholesome supper and it was faultlessly served and much enjoyed. The speakers were very interesting. The "get together" was one long to be remembered.

On account of the scarlet fever epidemic in Port Ewen there will be no session of Sunday School in the Methodist Episcopal Church Sunday morning.

Mr. and Mrs. Frank Turk and family of Kingston have rented the house of J. Yack in Port Ewen.

There was a fair attendance at the fifth annual masquerade ball of Exodus Council, No. 42, Sons and Daughters of Liberty in Pythian Hall, Port Ewen, Friday night. There were a great many people from out of town and very few home people present. The hall was beautifully decorated with Old Glory and red, white and blue streamers.

Church Notices for Sunday.

MUSIC APPROPRIATE

TO THANKSGIVING SEASON.

At the First Reformed Church on Sunday the music under the direction of W. Whiting Fredericks, organist, will be appropriate to the Thanksgiving season.

At the morning service the organ prelude will be Mendelssohn's "Heaven and Earth Display" and the anthem will be that beautiful harvest number, "He Sendeth the Springs" by Wardeau.

For the offertory, Mrs. Doty, the contralto soloist of the church will sing "Consider the Lilies" from Maunders' "Song at Thanksgiving."

At the evening service Mr. Fredericks will play "The Guardian Angel" by Pierre, an organ number in which the chimes and echo organ are used most effectively, while the anthem will be that joyous composition of praise, Maunders' "Praise the Lord." Mr. Stine, baritone, will sing the offertory solo.

BRITAIN PREPARES

TO REVISE CENSUS

London, Nov. 24 (P).—British census officials are already marshaling their forces for the taking of Great Britain's next census in 1931.

According to an official of the Registrar-General's department at Somerset House, where the records are kept, the figures are expected to show a marked increase over those for 1921, when the last census was taken.

The census was first taken in 1801, when the figure was 5,932,000, he said. "In 1921, the population was 37,687,000. The last general census showed that there were 35 more females to males per thousand, and compared with 57 in 1801."

Feminists are particularly interested in getting the new figures showing the proportion of females to males in the present population. They expect the preponderance of women over men which loomed so large just after the war, to have been greatly reduced by the increased numbers of males over females shown in the post-war birthrates.

Hereafter, the British census will in all probability be taken every five years, instead of every ten years, as has been the custom. The cost of the last census was \$1,755,000.

GERMAN WOMEN LEARN

ABOUT WOMEN OF U. S.

Berlin, Nov. 24 (P).—Several hundred German women are assembling each week to learn facts about the American woman. Frau Louise Diel, lecturer and feminist, who spent several months in the United States this year studying American home life, has started a course of lectures at the Humboldt High School under the general title of "Is the American woman really different?"

Some of the sub-titles follow: "A Day in the Life of an American

PARIS TREES DNE YOUNG

AND MUST BE REPLACED

Paris, Nov. 24 (P).—More than 100,000 trees compose the cloak of living green that Paris dons every spring. The trees do not live long, however, and the city is obliged to maintain two special tree parks, where young trees are cultivated to replace dead ones.

Twelve hundred gardeners, tree-specialists and lumberjacks are on the permanent staff which maintains the beauty of public parks and gardens.
